
OPEN SOURCE DECLARATIONS

PC-lint Plus incorporates several pieces of Open Source Software. The following declarations are made in compliance with the respective licenses.

- **LLVM/clang**
 - Attribution: C and C++ front-end support is provided by the LLVM and clang projects.
 - License: **University of Illinois/NCSA Open Source License**
- **PCRE**
 - Attribution: Regular expression support is provided by the PCRE library package, which is open source software, written by Philip Hazel, and copyright by the University of Cambridge, England.
 - License: PCRE2 is a library of functions to support regular expressions whose syntax and semantics are as close as possible to those of the Perl 5 language.

Release 10 of PCRE2 is distributed under the terms of the "BSD" license, as specified below. The documentation for PCRE2, supplied in the "doc" directory, is distributed under the same terms as the software itself. The data in the testdata directory is not copyrighted and is in the public domain.

The basic library functions are written in C and are freestanding. Also included in the distribution is a just-in-time compiler that can be used to optimize pattern matching. This is an optional feature that can be omitted when the library is built.

THE BASIC LIBRARY FUNCTIONS
